## *From The Desk of The Principal*

**S**chools today are no longer mere centres of spreading literacy – if a school today encompasses a much wider horizon they are facilitators in the important process of personal growth and development of an individual as a resourceful member of the society.

-----  
**Knowledge which is acquired under compulsion obtains no hold on mind -Plato**  
-----

What according to you is the importance of education – Scoring high marks? Certificate acquisition? Honing the skills of rote learning to spew out the crammed information effortlessly?

Unfortunately this is the sole purpose of education being marketed by our system today. Education has to serve the means to open the mind. It has to teach us how to think rather than telling us what to think. This is what we aim to do at The S.J.T. School – implant a seed of inquisitiveness, cultivate a love of learning and groom the child to become an independent thinker and a visionary leader. Effective learning involves creating and solving our own errors. I want our children to go ahead, stretch out enthusiastically to test their limitlessness, not to fear committing mistakes, not to fear encountering failures, for these should be used as stepping stones to move ahead towards fulfillment of their dreams and aspirations.

Our children need to be guided to learn to think, reason, analyze and not follow blindly. Combine the learning with actions, let unavoidable errors impel them to seek greater undertaking. Teachers, parents and guardians need to work together to give our children a platform from which they may learn to open their wings and soar up confidently towards success.

## **Vision**

To develop future - ready global youth who will enhance society through their scholastic achievements. possess a drive to excel and a Compassion and understanding of the complex and uncertain world around them.

It is our endeavor to provide children a learning environment which is conducive to inculcating a spirit of enquiry and creativity co-operation and natural respect, leading to intellectual emotional and spiritual growth.

It is the earnest endeavor of school to foster clean rooms without frar, a work ethic that is co-operative rather than competitive, trust and innovative approaches to allow children to explore and discover not just learn by rote.

## **Mission**

To develop students who will :

- Achieve the highest academic standards.
- Grow to be analytical and critical thinkers.
- Become compassionate and sensitive leaders.
- Encourage Creativity.
- Make them appreciate human rights. respect human dignity and promote peaceful co existence.
- Empowers with knowledge and skills to make them useful members of the community whom they can line globally
- Become custodians of their own physical. emotional and spiritual well being.

# The school with a difference

The early year experiences play a very crucial role in the overall growth and development of every faculty of a child and hence should be nurtured. The junior school at SJT School is divided into the Kindergarten and the primary classes from grade I to V. The middle School is from grade VI to VIII and the high school from IX to X.

## Kindergarten, the first step .....

Cognitive, emotional and physical development is what we nurture at St. Wilfred's School in our kindergarten classes. Through carefully designed experiences the little souls are taken through curriculum which aims at bringing out the uniqueness of every child at his own pace. The kindergarten programme addresses the whole child emphasizing on every aspect of the personality in its right perspective. The aim is not only to help the child grow into a confident personality but also into an independent and creative mind. To make all this a reality our teachers design experiences that go beyond the learning of phonetics, Mathematics, language arts, etc but also integrate music, dance and movement, drawing and drama very naturally into the curriculum.

## The Primary Years ...

The primary years curriculum focusing on grade I to V takes the whole philosophy of the kindergarten years forward through a programme of learning that builds on the observation and creative abilities of the learners. The introduction of the computers in grade I and II broadens up the horizons of learning. In the Upper Primary years, Grade III to V, the learner begins to use his acquired skills in language and mathematics to take the initiative of learning further. Primary years focus on developing independent learning habits in our students by building their curiosity in their environment. Care is taken by the teacher to ensure group work and peer learning. SJT School believes in using assessment as a tool to understand the learner better rather than judging them.

## The Middle School

The Middle School from grade VI to VIII has developed a programme to address the unique learning styles of young students at a crucial stage in their development. It provides a transition from the protective, guided environment of the primary years to the departmentalized high school. It is a programme designed for the unique needs of Middle Grade Scholars.

The Middle School works to provide a balance between attention to basics, coverage of necessary skills and knowledge. At this stage students explore a wide variety of interests and experiences. The curriculum is based on a core of courses in English, Mathematics, Social Studies, Science, third language and the arts.

The middle school programme promotes an integrated approach through cross curricular links with wide range of subjects. nurture communication and high order thinking skills, promote responsible and caring citizenship through study of the environment and community service. Promote understanding of the importance of conservation through making right lifestyle choices. The programme accentuates the way subjects inter-relate and promotes a holistic view of knowledge.

## The High School

The High School from grade IX to X Prepare students for the CBSE Examination so that students gain admission to prestigious universities of their choice. Foster high academic achievement through the study of a range of subject choices offered. Strengthen students' effective study skills and high order thinking skills. Encourage students to critically evaluate information.

Promote strong communication skills and development of personality. Develop an awareness of the media and competence in computer application. Foster social development, cultural awareness and genuine understanding of other traditions.

Promote responsible and caring citizenship through a programme of community service. Instill a sense of responsibility to promote liberty, justice and protect one's and others right for common welfare. Enable students to make right lifestyle choices through health, social and adolescent education programme.

Enhance in them a sense of ethical leadership and develop the skills. Enable students to plan their future careers and help them in their preparation. In addition to fostering high academic achievement through a choice of a wide range of subjects. the Senior School programme requires the participation in activities beyond academics which include sports. cultural activities, workshops and community service. Field trips, guest lectures, career guidance and students exchange programmes are planned to provide an enriching learning environment.

# Infrastructure

- Well ventilated and spacious class rooms with a large play ground.
- Spacious and well equipped Physics. Chemistry. Biology. Computer and Mathematics Labs
- To make teaching interesting, effective and meaningful audio-visual teaching aids are used in class room teaching.
- A well designed Art and Craft room where models and paintings are displayed.
- The school has got a unique identity through its large auditorium with a seating capacity of more than 650 students.
- To inculcate upto date knowledge among students, proper and individual attention is paid by well qualified and experienced teachers.
- Professional music teachers offer training in vocal and instrumental music with tabla, Harmonium etc.

## Admission Process

Application forms are to be filled in and submitted to the Administrative Office within two working days from issue of the form.

Admission to Nursery & Preparatory will be through Observation / Interaction. Observation / Interaction would be held on the same day and both the parents should be present. Date & Timings for Observation / Interaction will be intimated at the time of submission of registration form.

Students of Classes I to V will be assessed on the basis of an interview.

There will be a written test for students seeking admission to Classes VI to IX at SJT School

At the time of registration, the following documents are to be submitted to the Administrative Office:

1. Duly filled and signed Registration Forms.

## Age Limit

### Play Group

2 1/2 years to 3 years

### Nursery and K.G.

3 years to 4 years

### Prep.

4 years to 5 years and above

## Subject

Admission from class VI to IX are made on the basis of entrance tests in the following subjects :

### Class VI to IX

English. Mathematics and General Awareness

## Tools of learning

Well structured curriculum: Each stage of the curriculum has been designed systematically with rich content, a diverse style of approach. and a flexible and focused methodology. The objective is to go beyond theory and make knowledge useful even outside the realm of books and examinations.

## Smart Class Technology

Smartclass is a digital initiative by extra marks This initiative endeavours to make available resource of knowledge content to each class Our.. interactive multimedia white board, thereby fostering a better understanding and igniting a lifelong love of learning. It also:-

- Brings abstract and difficult curriculum concept to life.
- Improves the teacher's of fectivenes' and productivity.
- Makes learning an enjoyable experience for students.
- Maximizes the academic performance of students.
- Enables a constant monitoring of your child's progress in class.

## Inter and Intra school Competitions

The school aims at holistic development of the child. Inter and Intra school competitions are a part and parcel of school's curriculum. We organize Inter and Intra school competitions like fancy dress, dance competition. debate, essay writing, Quiz shows etc. Celebrities are invited during the competitions to boost the morale of the students and make them enthusiastic. To nurture the artistic, aesthetic talent of the students competitions like drawing, rangoli and diya making etc are held in the session. Student actively participate in all school activities to sharpen up their talents.

## Trained Teachers

In order to prepare caring professionals who 'Teach for Understanding', all our teachers undergo continuous professional development. They are equipped with a vast repertoire of the latest tools and techniques as well as an updated knowledge of the best educational practices from around the globe.

## Games and sports

The school believes that a healthy mind dwells in a healthy body. We provide ample opportunities to the students to participate in indoor and out door games badminton, cricket, volley ball, basket ball, football, chess, carom etc. School annual sports are organized to know the talent of the children and inculcate sports man spirit in the students. Trained coaches impart training for different games.

## Science & Art Exhibition

The school organizes excellent science and art exhibition during the academic session. The students get a chance to show their creativity through live-science models, charts, drawings, paintings and craft items.

## Laboratories

Our three Science laboratories are superbly designed. The wide counter tops and spill proof bottles ensures safety during experiments. The labs are big and airy and can comfortably take in large batches of students. The labs have charts, models etc which enhance and enrich the learning process.

## Information Technology

We have fully equipped IT centre as we understand the growing impact of it in all spheres of life. The centre comprises of two teaching labs, Junior and Senior.

## Summer Camp

Summer break is synonymous with study break. It is the time to unwind, learn new skills, get refreshed and energised. We make sure all our students have a remarkable summer holiday. During the summer holidays the school itself is a hub of activities which are thoroughly enjoyed by the participants of the summer camp. Sports like cricket, football. Skating and visual and performing arts are organized.

## Art and craft

"Every child is an artist" We have art and craft classes where in the young artists explore their skills of creativity.

## Communication Skill

Children are placed under the charge and responsibility of competent and specially trained teachers to ensure effective functioning. They are ably assisted by trained and experienced teachers. Stress is given on the various areas of physical, mental, intellectual growth by giving lingual skill to the children to enable them to express their views through Hindi and English language effectively.

## Dance

It is said that dance is the ultimate defiance of gravity. It is an artistic expression as well as a workout for the entire body. Our choreographer ensures that each student gets into his/her dancing shoes. Training is imparted in different forms of western, classical and folk dance.

## School Fair

The school organizes school fair to develop the spirit of team work, organizing capacity, coordination and cooperation among staff and students. An opportunity is extended to parents, students and staff of the school to have an informal get-together for fun and enjoyment.

## Vocal Music

Vocal music has been introduced to improve the various skills involved in singing. These skills include — breath control, Tone production, pitch control, musical intonation, proper formation of vowels and consonants as well as clarity of words.

## Festivals

All festivals are celebrated in the school with great fervor due respect is given to different religions to make the students aware about our rich culture.

## Instrumental Music

Music is to soul what words are to mind. We provide first hand training to our students in instrumental music. They learn to play various instruments like Tabla, Harmonium, Synthesizer etc.

## House system

In order to inculcate a spirit of healthy competition, coordination, co-operation among the students, they are divided into four houses viz RED, YELLOW, GREEN, BLUE lead by House masters and assisted by Assistant House masters and House captains. This house system covers academic, cultural, literary and sports activities of the school.

## Library

A well lit extensive library is available for students and faculty. Besides the books on every subject and topic the library subscribes to various periodicals and local dailies. Other library resources include reference books, magazines, other creative books and a large collection of DVD's and CD's

## School Excursions and Tours

The school organizes certain well planned picnics, excursions and educational tours frequently to acquaint the student with life and environment of different places.

## Auditorium

Supremely talented though the students may be, the talents would never reach the zenith if they did not pass the acid test of public performance. The auditorium is just one such platform for the students to display their talents. The auditorium has a seating capacity of 650 people. The wooden stage, the green rooms and the excellent sound system make performance a pleasure. All the competitions and programmes take place in the auditorium.

## Seminars and workshops

Seminars and workshops on different subjects are regular features of the school which are conducted by eminent scholars and educationists to enrich knowledge of our teachers and students.

## Medical check-up

Health care activities and regular medical check-ups are held in the school to keep the students physically fit and mentally alert. Frequent visits by doctors and dieticians acquaint students to take nutritious food and avoid junk food. They are made aware of dental health also.

## Conveyance

The school has got it's own fleet of buses providing transport facility to the students. The conveyance facility is made available from all parts of the city and charges are according to distance. Conveyance charges once paid will not be refunded or adjusted.
